

Contact Lens Questionnaire

How long has the applicant been wearing contact lenses?

Average number of hours that lenses are worn per day:

Are lenses well tolerated?

 Yes

 No

What are lenses made of?

Have there been any episodes of dislodgement over the last 12 months?

Polycarbonate Glasses

All applicants requiring visual correction are required to have a pair of spectacles of coated polycarbonate material. This includes those applicants who plan to wear contact lenses on duty.

Does the applicant have a pair of polycarbonate spectacles that corrects their vision to meet police standards?

 Yes

 No

If yes, please attach receipt as proof of purchase. The receipt must specifically state that the glasses are polycarbonate material.

Colour vision (Ishihara test - either 24 or 38 plate)

Ishihara test

 24 plate

 38 plate

Any errors?

 Yes

 No

If yes, please record number of errors.

If the applicant makes 4 or more errors they will be required to attend the University of NSW for further testing.

Applicants with protan defect are unlikely to be able to proceed.

Surgical Procedures

Has the applicant ever had a surgical procedure on their eyes, (including photorefractive surgery or implanted lens)?

 Yes

 No

If yes, a report from an Ophthalmologist is likely to be required.

Visual Fields/Binocularity

Are the visual fields normal to testing?

 Yes

 No

Is binocular coordination normal?

 Yes

 No

Is stereopsis normal?

 Yes

 No

Is depth perception normal?

 Yes

 No

Does the applicant have normal binocular vision?

 Yes

 No

If the answer to any of the above questions is "no", a report from an Ophthalmologist will be required.
